

Biometric Time Attendance System for Institutions

Young Student Clock In with Finger

FS20 Fin'Lock Fingerprint Reader

Fingerprint Time Attendance System Features:

- Automate Time Attendance taking for students and staff
- Automatic reports generation (daily/weekly/monthly/absentee/late)
- Students place their assigned finger on the fingerprint reader, no cards
- No buddy punching, no excuse for not clocking in (finger always available)
- Secure, Accurate, Cost-effective, Efficient and Maintenance-free
- Modular, Expandable and Mobile

SMS Notification Add-On Module:

- Allow the system to send SMS notification to parents for various situations (absent/late/arrive/depart)
- For absentee, SMS can give parents option to call institution for confirmation
- Able to use this system for mass notification example early release/holiday

Other options:

- Guardian ID verification for student pickup
- Secure Access Control to office/rooms
